## Little Trachoma Germ

Little germ, little germ, where have you been?  
I've been on you, little kid, sight unseen

Little germ, little germ what did you do?  
I hid under your eyelid, spreading through

Little germ little germ that was quick  
germ\_01 I worked fast and made your eyes sick

Little germ little germ, what is wrong?  
You washed your face, now I'm not strong

Little germ little germ, you're fading fast  
There's no grot or snot left, so I won't last

Little germ little germ, are you my friend?  
No I'm not and I'm nearing the end

Little germ, little germ, I don't like you  
Your face stayed clean so now I'm through!
